The information highlighted in bold below is especially important, in accordance with Annex 3 of Circular 5/2012.

1. Description of the payment method:

a) Deferred revolving payment: Deferred revolving payment with fixed amount: You will pay the chosen payment amount on the 5th of each month. This payment includes principal, interest and fees. The minimum monthly payment cannot be less than 20.00 euros. Also, regardless of the amount chosen, remember that the minimum monthly repayment will be 3.00% of the balance drawn before settlement, plus interest and fees for the monthly payment period.

The Card is issued with the payment you choose.

2. If you do not pay the amounts due on the payment date indicated in accordance with the chosen repayment system, BBVA will proceed to capitalize any overdue, payable and unpaid amounts.

3. You can modify the chosen payment amount at any time, at your BBVA branch, through Contact BBVA (900 10 28 01) and through the BBVA app and website. BBVA may modify the repayment systems by notifying you at least two months in advance.

4. Representative examples of the revolving deferred payment and personalized payment repayment systems. The examples shown below have been calculated taking into account the minimum repayment amount permitted by the contract.

- **Deferred revolving payment with fixed amount.** If you choose this repayment system and use the full credit limit of your contract to finance the payment of a purchase:

- **Credit limit drawn: 1,500 euros**
- **Total amount to be repaid: 2,126.63 euros**
- **Nominal annual interest rate: 18.00%**
- **Resulting APR: 19.58%**
- Term that it will take to repay the debt: 68 months
- Monthly payment 20 euros (includes principal and interest). Regardless of the amount chosen, the minimum monthly repayment will be at least 3.00% of the credit limit drawn, plus interest and fees accrued.

The examples have been calculated taking into account that you have drawn down all the credit granted on the same day you take out the card, for example on October 15, 2023, and you have not made any more charges until it is fully repaid.

You must bear in mind that the examples we have shown you have been calculated taking into account that the funds have been drawn down through payments for purchases. **If the funds are drawn down, for example, by withdrawing cash or transferring credit to your account, the APR may be higher, as it may entail the payment of additional fees.**
