It must be destroyed when the Bank sends a new one to replace the previous one.</p> <p>The credit card holder may choose one or more of the following systems for repaying the principal drawn against the limit of the card:</p> <p>a) Payment in Full: every month the total balance drawn reflected in the monthly statement of the Credit Card Account will be debited from the "Direct Debit Account". When cash is either withdrawn against the "Credit Card Account" and/or transferred from the "Credit Card Account" to the "Direct Debit Account", an annual nominal interest rate of 21.60 % will accrue in favor of the Bank from the time of withdrawal until the settlement date.</p> <p>b) Deferred revolving payment:</p> <p>Of a fixed monthly amount: This represents a fixed monthly repayment amount comprising principal, interest and fees. You can also pay in 3, 4, 5 or 6 interest-free payments, with a deferral management fee of 3.5%, 4.3% 5.2% or 6% of the deferred capital, respectively. This system specifically applies to each individual settlement for which it has been requested.</p> <p>In personalized payments, the monthly installment is used firstly to pay the agreed interest, fees and expenses and, secondly, to repay the principal.</p> <p>The frequency of payments in all the modalities will be monthly.</p>

Personalized payment at an annual nominal interest rate of 21.60 %.</p> <p>Personalized payment With fee: no interest is applied.</p>
-------------------------------------	---

■ **Annual Percentage Rate (APR).**

- The APR is the total cost of the credit expressed as the annual percentage of the total amount of the credit. The APR serves to compare different offers.

It will depend on the chosen payment method:

All the above assumptions include payment of a credit card issuance and maintenance fee.

a) Payment in Full: Assuming the Credit Limit of €3,000 is drawn each month in its entirety through purchases in stores during the monthly settlement period (e.g. November 12, 2023), the total amount payable each month would be €3,000. **Over 12 months, this would amount to €36,099** including the €99 annual credit card issue and maintenance fee, which is charged the first month. **The resulting APR will be 3.47%.**

b) Deferred revolving payment:

Of a fixed monthly amount: Assuming the Credit Limit of €3,000 is drawn in its entirety for a single purchase in a store on the same day the card is acquired (e.g. November 12, 2023) at an annual nominal interest rate of 21.60 % and with monthly installments of €279 (including principal and interest) payable on the 5th each month. **The total amount to be repaid over 12 months would be €3,340.45**, in 11 installments of €279, plus a final installment of €271.45, which is the amount resulting from the difference between the total amount payable and the sum of the previous monthly payments. **The resulting APR will be 23.37 %.**

c) Personalized payment with interest: Assuming the Credit Limit of €3,000 is drawn in its entirety for a single purchase on the same day the card is issued (e.g. November 12, 2023), at a nominal annual interest rate of 21.60%, **the total repayable in 12 monthly installments would be €3,365.62**, with a first payment of €31.96, which includes interest, and 11 payments of €303.06. **The resulting APR will be 23.87%.**

	<p>d) Personalized Payment with fee:</p> <p>Assuming a credit limit of €3,000 is drawn in its entirety for a single purchase in a store on the same day the card is issued (e.g. November 12), payable in 6 months, with the first payment being for €180, and including only the deferral management fee, and six remaining payments for €500, including only principal. The total amount to be repaid will be €3,180, including the deferral management fee of €180. The resulting APR will be 19.80 %.</p> <p>Assuming a credit limit of €3,000 is drawn in its entirety for a single purchase in a store on the same day the card is issued (e.g. November 12), payable in 5 months, with the first payment being for €156, and including only the deferral management fee, and five remaining payments being for €600, including only principal. The total amount to be repaid will be €3,156, including the deferral management fee of €156. The resulting APR will be 19.41 %.</p> <p>Assuming a credit limit of €3,000 is drawn in its entirety for a single purchase in a store on the same day the card is issued (e.g. November 12), payable in 4 months, with the first payment being for €129, and including only the deferral management fee, and four remaining payments being for €750, including only principal. The total amount to be repaid will be €3,129, including the deferral management fee of €129. The resulting APR will be 18.43 %.</p> <p>Assuming a credit limit of €3,000 is drawn in its entirety for a single purchase in a store on the same day the card is issued (e.g. November 12), payable in 3 months, with the first payment being for €105, and including only the deferral management fee, and three remaining payments for €500, including only principal. The total amount to be repaid will be €3,105, including the deferral management fee of €105. The resulting APR will be 17.72 %.</p>

ADDITIONAL INFORMATION ON REGULATING THE REVOLVING CREDIT:

This document contains information on revolving credit regulated by Ministerial Order EHA/2899/2011, dated October 28, on transparency and protection for clients of banking services, and Bank of Spain Circular 5/2012, dated June 27, on transparency of banking services and responsible lending.

The information highlighted in bold below is especially important, in accordance with Annex 3 of Circular 5/2012.

1. Description of the different payment methods:

a) Payment in Full: On the 5th of each month, you will pay the total amount of credit drawn down on the settlement date. If you have credit through cash withdrawal on credit, on that date you will also pay the fees and, where applicable, interest generated, together with the principal.

b) Deferred revolving payment:

I. Deferred revolving payment with fixed amount: You will pay the chosen payment amount on the 5th of each month. This payment includes principal, interest and fees. The minimum monthly payment cannot be less than 18 euros. Also, regardless of the amount chosen, remember that the minimum monthly repayment will be 3.00% of the balance drawn before settlement, plus interest and fees for the monthly payment period.

c) Personalized Payment. This repayment system is independent of the revolving deferred or payment in full systems. You can request to finance purchases, cash withdrawals or the bill to be paid through personalized payments, provided that it is more than 50.00 euros. Personalized payments allow two types:

I. Personalized payment with interest: you can choose to repay the capital between a minimum of 7 and a maximum of 36 monthly payments. The following month after you request the personalized payment, you will only pay interest. The remaining payments include principal and interest.

II. Personalized payment with fee: you can choose to repay the capital between 3, 4, 5 or 6 monthly payments. The first payment will be paid the month after you request the personalized payment. This first payment will include principal and the deferral management fee. The remaining payments will only include principal.

Personalized payments are paid on the 5th of each month.

The Card is issued with the payment method you choose.

2. If you do not pay the amounts due on the payment date indicated in accordance with the chosen repayment system, BBVA will proceed to capitalize any overdue, payable and unpaid amounts.

3. You can modify the chosen repayment system at any time, at your BBVA branch, through Contact BBVA (900 10 28 01) and through the BBVA app and website. BBVA may modify the repayment systems by notifying you at least two months in advance.

4. Representative examples of the "revolving" deferred payment and personalized payment repayment systems. The examples shown below have been calculated taking into account the minimum repayment amount permitted by the contract.

- Deferred revolving payment with fixed amount. If you choose this repayment system and use the full credit limit of your contract to finance the payment of a purchase:

- Credit limit drawn: 3,000 euros
- Total amount to be repaid: 4,655.60 euros
- Nominal annual interest rate: 21.60%

- **Resulting APR: 23.70 %**
- Term that it will take to repay the debt: 95 months
- Monthly payment 18 euros (includes principal and interest). Regardless of the amount chosen, the minimum monthly repayment will be at least 3.00% of the credit limit drawn, plus interest and fees accrued.

- **Personalized payment with interest.** If you choose this repayment system and use the full credit limit of your contract to finance the payment of a purchase:

- **Credit limit drawn: 3,000 euros**
- **Total amount to be repaid: 4,134.16 euros**
- **Nominal annual interest rate: 21.60 %**
- **Resulting APR: 23.85 %**
- Term that it will take to repay the debt: 37 months
- First settlement: 31.96 euros (includes interest)
- Monthly payment 113.95 euros (includes principal and interest)

- **Personalized payment with fee:** If you choose this repayment system and use the full credit limit of your contract to finance the payment of a purchase:

- **Credit limit drawn: 3,000 euros**
- **Total amount to be repaid: 3,180 euros**
- **Deferral fee: 6.00 %**
- **Resulting APR: 19.80 %**
- Term that it will take to repay the debt: 6 months
- First monthly installment to be paid 180 euros (includes only the deferral fee)
- Remaining payments: 500 euros (principal only)

The examples have been calculated taking into account that you have drawn down all the credit granted on the same day you take out the card, for example on November 12, 2023, and you have not made any more charges until it is fully repaid.

You must bear in mind that the examples we have shown you have been calculated taking into account that the funds have been drawn down through payments for purchases. **If the funds are drawn down, for example, by withdrawing cash or transferring credit to your account, the APR may be higher, as it may entail the payment of additional fees.**

The Bank may cancel the contract by informing you two months in advance.

After giving the Holder 2 months' notice, Iberia Cards or BBVA may change the interest rate, fees, expenses and other conditions contained in the Contract, as well as include new ones.

Iberia Cards may modify the terms and conditions of the contract, due to a change in market circumstances, economic conditions, regulatory changes, a modification of the tax regulations, as well as for any other valid reason in accordance with Article 85.3 of Royal Legislative Decree 1/2007 of 16 November, approving the consolidated text of the General Law for the Defense of Consumers and Users, or the regulation that replaces it.

The Holder will be deemed to have accepted the modifications if he/she does not notify Iberia Cards and/or BBVA of his/her objection before the proposed date of entry into force. In this case, the Holder shall have the right to terminate the contract at no cost and with effect from any time prior to the date on which the modification would have been applied.

Any modifications that are unequivocally more favorable to the Holder shall be applied immediately.
