REP PLA EDITION 09-21

■ **Term of credit agreement.**

- The terms and, if applicable, the order in which the installment payments will be carried out.

This agreement is drawn up for an indefinite term.

Each card will be valid until the last day of the month printed on it and may not be used later than this date. It must be destroyed when the Bank sends a new one to replace the previous one.

The credit card holder may choose one or more of the following systems for repaying the principal drawn against the limit of the card:

- a) **Total payment:** every month the total balance drawn reflected in the monthly statement of the Credit Card Account will be debited from the "Direct Debit Account". When cash is either withdrawn against the "Credit Card Account" and/or transferred from the "Credit Card Account" to the "Direct Debit Account", an annual nominal interest rate of 17.52% will accrue in favor of the Bank from the time of withdrawal until the settlement date.
- b) **Deferred revolving payment:** allows, in turn, the following options:
 - 1) **Of a monthly percentage:** assuming a monthly repayment of at least 3% of the balance drawn appearing on the monthly statement prior to settlement, plus the interest and fees accrued during the corresponding monthly period. The holder may choose another percentage, higher than 3% and lower than 100%. Notwithstanding the above, if the result of applying the chosen percentage to the outstanding principal on the "Credit Card Account", plus interest and fees, is lower than the fixed monthly amount of €5, the latter amount will be charged (fixed minimum repayment fee).
 - 2) **Of a fixed monthly amount:** This represents a fixed monthly repayment amount comprising capital, interest and fees. The minimum fixed amount monthly is €12 with the option to choose any higher amount. With both options the minimum monthly repayment will be set as 3% of the balance drawn reflected on the "Credit Card Account" statement prior to settlement, plus the interest and fees accrued during the corresponding monthly period.

Deferred payments do not entail the immediate repayment of the principal.
- c) **Personalized revolving payment:** With this system, you can either repay the amount spent in a transaction performed using the Cards (purchases, cash withdrawals or transfers from the card's credit account to the payment debit account)

	<p>or repay the full monthly balance drawn following settlement, which must be equal to or greater than €50, or it may be repaid through a certain number of fixed monthly payments (including principal and interest). The amount of the payments will depend on the repayment period chosen by the Account Holders, between a minimum of 7 payments and a maximum of 36. You can also pay in 3, 4, 5 or 6 interest-free payments, with a deferral management fee of 2.9%, 3.6% 4.3% or 5% on the deferred amount, respectively. This system specifically applies to each individual settlement for which it has been requested.</p> <p>Personalized payments do not entail the immediate repayment of the principal.</p> <p>The frequency of payments in all the modalities will be monthly.</p>
<p>■ Total amount that you will have to pay.</p> <ul style="list-style-type: none"> - That is, the amount of the principal drawn plus any interest and possible expenses related to your credit. 	<p>The total amount payable will depend on the payment methods:</p> <p>a) Total payment: Assuming the total credit of €3,000 is drawn each month in its entirety through purchases in stores, during the monthly settlement period, the total amount payable on the 5th of each month would be €3,000. Over 12 months, this would amount to €36,090 including the €90 annual credit card issuance and maintenance fee charged during the first month.</p> <p>b) Deferred revolving payment:</p> <p>1) Of a monthly percentage. Assuming the Credit Limit of €3,000 is drawn in its entirety for a single purchase in a store on the same day the card is issued (e.g. May 1) at an annual nominal interest rate of 17.52% and monthly repayments of 45% of the balance drawn at any given time, on the 5th of each month, the total amount payable over 12 months would be €3,198.79, including the annual card issue and maintenance fee of €90.</p> <p>2) Of a fixed monthly amount. Assuming a Credit Limit of €3,000 drawn entirely in a single purchase in a store on the same day the card is issued (for example May 1), at the annual nominal interest rate of 17.52% and monthly repayments of €300 (for capital, interest and fees), payable on the 5th of each month. The total amount repayable across 12 months would be €3,380.49, in 11 installments of €300 plus a final payment of €80.49, which is the amount resulting from the difference between the total amount payable and the sum of previous repayments. The first fee includes the annual card issue and maintenance fee of €90.</p>

	<p>c) Personalized revolving payment</p> <p>1) Personalized payment with interest. Suposto o límite de crédito de 3.000 €, disposto na súa totalidade nunha única compra no mesmo día en que contrata a tarxeta (por exemplo, no día 1 de maio), ao tipo de xuro nominal anual do 18,00 %, o total que habería que devolver en 12 meses sería de 3.411,06 €, mediante unha primeira cota de 134,38 €, comprensiva de xuros e da comisión anual por emisión e mantemento dunha tarxeta de crédito de 90 €, e 11 cotas de 297,88 €</p> <p>2) Personalized payment without interest: Assuming a credit limit of €3,000 drawn in full in a single purchase in a single store on the same day the card is issued (e.g. May 1), repaid over 6 months (with the first payment being of capital and interest), the total amount payable would be: €3,240; including the deferral management fee of 5% of the amount financed and the €90 annual credit card issuance and maintenance fee.</p>

3. CREDIT COSTS

<p>■ The borrowing rate.</p>	<p>Total payment for Cash Withdrawals and/or Transfers from the "Credit Card Account" to the "Direct Debit Account" at an annual nominal interest rate of 17.52%.</p> <p>Of the Card/Deferred Payment account 17.52% annual nominal rate. Personalized payment at an annual nominal interest rate of 18%.</p> <p>Personalized payment without interest: no interest is applied.</p>
<p>■ Annual Percentage Rate (APR).</p> <p>- The APR is the total cost of the credit expressed as the annual percentage of the total amount of the credit. The APR serves to compare different offers.</p>	<p>It will depend on the chosen payment method:</p> <p>Assuming the total payment method in accordance with the parameters set out in the above section; resulting APR of 3.04% and a resulting NDER of 0%.</p> <p>Assuming the Deferred Payment of a monthly percentage with the parameters set out in Section 2; the resulting APR will be 37.99% and the resulting NDER will be 19%.</p> <p>Assuming the Deferred Payment method for a minimum monthly amount with the parameters set out in Section 2; the resulting APR will be 25.98% and the resulting NDER will be 19%.</p> <p>Assuming the Personalized Payment method with interest, with the parameters set out in Section 2; the resulting APR will be 26.05% and the resulting NDER will be 19.56%.</p> <p>Assuming the Personalized Payment method without interest with the parameters set out in Section 2; the resulting APR will be 32.60%.</p> <p>The NDER is the narrowly defined effective rate and is equivalent to the APR without including fees and expenses</p>

	All the above assumptions include payment of a credit card issue and maintenance fee.
--	---
